Prospective investors should carefully consider all the information in the Prospectus, particularly the “Restated Financial Information of the Company” and the related notes, “Business Overview” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 168, 113 and 170 respectively of this Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors whose potential effects are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved. You should not invest in this Offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “Risk Factors” on page 26 and “Management Discussion and Analysis of Financial Condition and Results of Operations” on page 170 of this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Restated Financial Statements”.

INTERNAL RISK FACTORS

- 1. There is an Interim Order/Show Cause Notice passed by the Securities and Exchange Board of India (SEBI) involving Mr. Vedprakash Devkinandan Chiripal and Ms. Savitridevi Chiripal part of our Promoter Group, alongwith other entities viz. Mauria Udyog Limited, 7NR Retail Limited, Darjeeling Ropeway Company Limited, GBL Industries Limited, and Vishal Fabrics Limited which may impact our Promoter’s reputation and in turn affecting our business operations and the value of our shares.*

SEBI's investigation into these companies was triggered by an abnormal rise in their stock prices and trading volumes, coupled with similar trading patterns among certain entities. The investigation indicated that entities known as "PV Influencers" and "Off loaders" might have engaged in fraudulent trade practices using bulk SMS and website recommendations. This allegedly manipulated the prices and volumes of the shares before and after the SMS phase, allowing some entities to profit and subsequently exit the market. Further investigation revealed close connections among 15 involved entities, sharing common contact information and coordinating trading activities. The Chiripal Group,

part of Vishal Fabrics Limited's promoter/promoter group, and Mr. Vedprakash Devkinandan Chiripal, Promoter Group shareholder of Vishal Fabrics Limited, were reportedly implicated in the scheme, suggesting potentially fraudulent activities in Vishal Fabrics Limited shares.

SEBI has issued an interim order-cum-show cause notice numbering WTM/SM/ IVD/ID9/27532/2023-24 dated June 19, 2023 (“SEBI Interim Order”) based on factual findings, proposing restrictions on the entities' market activities and imposing monetary penalties. The details of monetary penalty w.r.t. parties related to us are provided herein below:

Scrip	Amount of wrongful Gains (in INR)	Entities jointly and severally liable for wrongful gains	Relation to Offeror Company
Vishal Fabrics Limited	1,34,67,773	Entities mentioned at Table No. 20, Table No. 39, Table No. 40 and Table No. 41.	This includes profit made by connected entities of Chiripal Group who are the Promoter Group of the Offeror Company.
	30,96,00,866	Entities mentioned at Table No. 20 and Table No. 39	

The SEBI investigation is ongoing and possible directions like debarment from accessing capital market against the said promoter group may affect the eligibility of our Company for accessing the capital markets.

As on September 05, 2025 SEBI is yet to render a final decision or order in response to the submissions made by our promoter group members and has not imposed any penalty, restraint, or debarment on the promoter group entity and promoter group members.

2. There are outstanding legal proceedings involving our Company, Promoters, Directors, and Group Companies. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities.

We believe that our future growth and competitiveness would depend on our ability to establish and strengthen our brand. We cannot guarantee that we will be able to make a lasting brand image with our clients and other people in the absence of these Trade Marks. Although we believe that our present systems are adequate to protect our confidential information and intellectual property, there can be no assurance that our intellectual property data, trade secrets or proprietary technology will not be copied, infringed or obtained by third parties. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations.

For further details of certain material legal proceedings involving our Company, our Promoters, our directors, see “*Outstanding Litigations and Material Developments*” beginning on page 182 of this Prospectus.

3. We do not own the premises in which our Registered Office and Corporate Office are located and the same are on lease arrangement. Any termination of such lease/license and/or non-renewal thereof and attachment by Property Owner could adversely affect our operations.

Our registered office premises situated at Survey 279 & 280, Unit No.13, Sub Plot No. 18 Sector 3 of Dholi Integrated Spinning Park, Ahmedabad, Gujarat- 382240 and Corporate Office premises situated at 322, 3rd Floor, Swaminarayan Plaza -1 Nr. Gokulesh Petrol Pump Narol, Ahmadabad, Gujarat, India, 382405 is taken on lease basis, for details related to premises taken on lease basis please refer the “*Detail of immovable property*” in the section “*Business Overview*” appearing on page no. 113 of this Prospectus.

Termination of our lease may occur for any reasons beyond our control and we may have to relocate to alternative premises or shut down our operations at such existing premises. Relocation of any part of our operations may cause disruptions to our business and may require additional expenditure, and we cannot assure you that in such a case, we will be able to find suitable premises on commercially reasonable terms in a timely manner, if at all or we may have to pay significantly higher rent or incur additional expenses towards interiors. Occurrence of any of these factors may materially and adversely affect our business, results of operations and financial condition. Further any adverse impact on the title, ownership rights, development rights of the owners from whose premises we operate, breach of the contractual terms of any lease, or any inability to renew such agreements on acceptable terms may adversely affect our business operations

4. We are primarily dependent upon few key suppliers for procurement of raw materials. Any disruption in the supply of these raw materials or fluctuations in their prices could have a material adverse effect on our business operations and financial conditions.

We are dependent on third party suppliers for procurement of raw cotton, which is the main raw material for manufacturing of cotton yarn. We procure a large portion of raw cotton from a few key suppliers, with whom we do not have any long-term supply contracts and therefore, we cannot assure you that we shall always have a steady supply of raw material at prices favourable to us. Inadequate supply of such raw materials caused either by a sudden change in the prices or imposition of any new taxes or for any other reason could have a material adverse effect on our business operations and financial condition. For Fiscal 2025, Fiscal 2024, and Fiscal 2023, purchases from our top ten suppliers amounted to ₹ 66,039.19 lakhs, ₹ 49,522.47 lakhs, and ₹ 13,264.16 Lakhs respectively, and represented 95.72%, 94.62%, and 89.05% of our total raw material purchases. In case of loss of any of our existing major vendors for any reason, it would have a material adverse effect on our business operations and profitability. If we cannot fully offset increases in the cost of raw materials, through increases in the prices for our products, we would experience lower margins and profitability, which would have a material adverse effect on our financial condition and results of operations. Total purchase of raw materials respectively for the year ended on March 31, 2025, March 31, 2024 and March 31, 2023 is as follows:

Particulars*	% contribution to Purchases		
	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023
Top 1 Supplier	32.38%	45.50%	55.37%
Top 3 Suppliers	71.36%	80.07%	72.93%
Top 5 Suppliers	88.92%	90.42%	80.99%
Top 10 Suppliers	95.72%	94.62%	89.05%

*As per the CA Certificate by JPMK & Company, Chartered Accountants dated August 26, 2025, bearing UDIN: 25114424BMJPCJ3854.

Our suppliers may be unable to provide us with a sufficient quantity of raw materials, at prices acceptable to us. Further, we may not be able to renegotiate our pricing or delivery terms on a reasonable basis or find suitable alternative suppliers in the future, which may affect our business, financial condition, cash flows and results of operations. Any extended interruption in the supply of raw materials could disrupt our operations and can have a material adverse effect on our business, results of operations or financial condition. Although we believe we have maintained stable relationships with our suppliers in the past,

we cannot assure you that, we will be able to source adequate quantities of raw materials in a timely manner from our existing suppliers in the future or we will be able to find alternative suppliers at acceptable prices and quality levels. Our inability to do so may adversely affect our reputation, business, results of operations and cash flows.

5. Substantial portion of our revenues has been dependent upon few customers, with which we do not have any firm commitments. The loss of any one or more of our major customers would have a material adverse effect on our business, cash flows, results of operations and financial condition.

The substantial portion of our revenues has been dependent upon few customers. For instance, our top ten customers for the Financial Year ended March 31, 2025, March 31, 2024 and March 31, 2023 accounted for 88.36%, 85.55%, and 82.68% of our revenue from operations for the respective year. Our reliance on a limited number of customers for our business exposes us to risks, that may include, but are not limited to, reductions, delays or cancellation of orders from our significant customers, a failure to negotiate favourable terms with our key customers or the loss of these customers, all of which would have a material adverse effect on the business, financial condition, results of operations, cash flows and future prospects of our Company.

The contribution of our top ten customers in our sales as a percentage of the revenue from operations during the financial year ended March, 2025, 2024 and 2023 are disclosed hereunder:

Particulars*	% contribution to revenue from operations		
	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023
Top 1 Customer	20.64%	28.62%	18.80%
Top 3 Customers	51.52%	61.71%	42.73%
Top 5 Customers	69.64%	74.91%	57.82%
Top 10 Customers	88.36%	85.55%	82.68%

**As per the CA Certificate by JPMK & Company, Chartered Accountants dated August 26, 2025, bearing UDIN: 25114424BMJPCJ3854.*

Further, there is no guarantee that we will retain the business of our existing key customers or maintain the current level of business with each of these customers. In order to retain some of our existing customers, we may also be required to offer terms to such customers which may place restraints on our resources. Additionally, our revenues may be adversely affected if there is an adverse change in any of our customers' supply chain strategies or a reduction in their outsourcing of product we offer, or if our customers decide to choose our competitors' product over ours or if there is a significant reduction in the volume of our business with such customers.

We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future. Further, the sales volume may vary due to our customers' attempts to manage their inventory, market demand, product and supply pricing trends, change in customer preferences etc., which may result in decrease in demand or lack of commercial success of our product, which could reduce our sales and adversely affect our business, cash flows, results of operations and financial condition.

6. Our business is vulnerable to variations in demand for cotton yarn and changes in consumer preferences, which could have an adverse effect on our business, results of operations and financial condition.

Our Company is primarily engaged in manufacturing & selling cotton yarn and Conditioning of yarn. Our revenue of cotton yarn is dependent on a number of factors, and the sale may be decline as a result of increased competition, regulatory actions, pricing pressures or fluctuations in the demand for or supply of our product and other factors outside our control. In particular, our business is vulnerable to rapidly-changing customer preferences. Our results of operations are dependent on our ability to attract customers by anticipating, gauging and responding to such changes in customer preferences, and manufacture of cotton yarn in line with changes in fashion trends as well as customer demands and preferences. A decline in demand for our product or a mis-judgment on our part could lead to increased market acceptance of our competitors' product or may result in the substitution of our product in the market, which could lead to us having lower sales and excess inventories. This may cause a decline in our revenues and profits, which would adversely affect our business, results of operations, financial condition and cash flows.

7. Our Company has not entered into any fixed or long term contracts with its customers and we will operate on the basis of orders received on hand. Inability to maintain regular order flow would adversely impact our revenues and

profitability.

We have not entered into any fixed or long-term contracts with our customers and we cater to them on an order-by-order basis. As a result, our customers can terminate their relationships with us without any notice and, without consequence, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our materials. Our Company's customers have no obligation to place orders with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the level of service that our Company provides, quality consistency, fluctuation in demand for our Company's products and customer's inventory management.

Although we place a strong emphasis on quality, pricing and timely delivery of our products and after sales service such as feedback on the trends in their market, personal interaction by the top management with the customers, etc., in the absence of contracts, any sudden change in the buying pattern of buyers could adversely affect the business and the profitability of our Company.

8. We do not maintain long-term contracts with our third-party suppliers, and our business may be adversely affected by a shortfall in supply, or increase in price of materials.

Substantially all our materials are purchased from third parties. We do not have any long-term supply contracts with any of our specific suppliers with respect to our material requirements and typically place orders with them in advance of our anticipated requirements. The availability of these materials is subject to many risks, including insect or animal infestation, adverse weather conditions, adverse ground conditions and natural and other disasters. Certain materials are available only at specific times during a year due to the seasonality of growing periods and harvest times in India. Furthermore, materials are subject to price volatility caused by factors, including commodity market fluctuations, the quality and availability of supply, currency fluctuations, consumer demand and changes in governmental agricultural programs. Material price increases result in corresponding increases in our selling costs. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure materials from alternate suppliers in a timely fashion, or on terms acceptable to us, may adversely affect our operations.

We rely on the adequate and timely availability of materials. Any supply chain disruptions may impact our material sourcing, which in turn may impact our ability to fulfil the demand of the customers. Any significant change in the cost structure or disruption in supply may affect the pricing and supply of products. If we are not able to increase our product prices to offset increased material costs, or if unit volume sales are significantly reduced, it could have an adverse impact on our profitability. This may adversely affect our business and financial performance.

9. Our Restated Financial Statements are prepared and signed by the Peer Review Auditor who is not Statutory Auditors of our Company as required under the provisions of SEBI ICDR Regulations 2018.

The Restated Financial Statements of our Company for the financial year ended March 31 2025, 2024 and 2023 respectively is prepared and signed by M/s JPMK and Co., Chartered Accountants, the Peer Review Auditor of our Company who is not statutory auditor of our Company. Our Statutory Auditor M/s. A B H L & Associates, Chartered Accountants is also a Peer Review Auditor.

10. We face competition, including from other large and established competitors, and we may fail to compete successfully against existing or new competitors, which may reduce the demand for our Product which may lead to reduced prices, operating margins, profits and further result in decline in revenue.

We face increasing competition from our existing and potential competitors in India and in overseas markets that may have substantially greater brand recognition, longer operating histories, greater financial strength, product development, sales, marketing, more experienced management, access to a cheaper cost of capital and other resources than we do. Our competitors may have lower costs, or be able to offer lower prices and a larger variety of products in order to gain market share. Our competitors may also make acquisitions or establish cooperative or other strategic relationships, among themselves or with third parties, including dealers of our product, thereby increasing their ability to address the needs of our targeted customers and offering lower cost products than we do which may have a negative effect on our sales.

To remain competitive, we must continue to invest significant resources in capital expenditure, research and development, sales and marketing and customer support. There can be no assurance that we shall have sufficient resources to make these investments or that we shall be able to make the technological advances necessary to be competitive.

11. Our operations are concentrated in the state of Gujarat and any adverse developments affecting Gujarat could have an adverse effect on our business, results of operations and financial condition.

Our operations are concentrated in the state of Gujarat. Our manufacturing facility is also located in Dholi, Gujarat. We sourced majority of our raw material from the state of Gujarat. Consequently, any significant social, political or economic disruption, or natural calamities or civil disruptions in the state of Gujarat or any changes in the policies of the state or local governments of this state or in the Government of India could require us to incur significant capital expenditure and change our entire business strategy in parts or in entirety. The occurrence of our inability to effectively respond to any such event or adapt to the changes in such policies could have an adverse effect on our business, results of operations, financial condition and cash flows.

12. Our business is operating under various laws which require us to obtain approvals from the concerned statutory/regulatory authorities in the ordinary course of business and our inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations could materially and adversely affect our business, prospects, results of operations and financial condition.

Our business requires us to obtain and renew from time to time certain approvals, licenses, registrations and permits, some of which have expired and for which we have either made or are in the process of making an application for obtaining the approval or its renewal. Further, these approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various authorities for operating our business activities may contain conditions, some of which could be onerous. There can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, it will have an adverse impact on our business operations.

Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations. For further details, see “*Government and Other Statutory Approvals*” on page 187 of this Prospectus. In the event that we are unable to obtain such approvals in a timely manner or at all, our business operations may be adversely affected. We may be involved in any environmental legal proceedings in the course of our business due to non-compliances with terms and conditions of regulatory approvals or authorizations.

13. Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.

Our business requires a significant amount of working capital and a major portion of our working capital is utilized towards inventories and trade receivables. Our growing scale and expansion, if any, may result in an increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have a high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. In case of any such defaults from our debtors, may affect our business operations and financials. Our Company has availed unsecured loans from our Managing Director, Mr. Navin Saraogi, and Whole-Time Director Mr. Aansh Rajesh Bindal which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of March 31, 2025, such loans amounted to ₹ 1,147.67 lakhs. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. Further no-show cause notice has been issued against our Company till date, in respect of above. These delays were primarily due to the COVID-19, internal and technical issues. We have since taken steps such as channelling more resources towards improving our administrative systems and training our staff to rectify such delays. However, there can be no assurance that such delays may not arise in the future. This may lead to financial penalties from respective government authorities. 17. Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customer's discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. Any material delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment default with regard to the orders placed with us, or disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and revenue of our company. Further, we operate in competitive markets in relation to our products where it is difficult to predict whether and when we will receive such awards. As a result, our results of operations can fluctuate from quarter to quarter and year to year depending on whether and when such orders are awarded to us and the commencement and progress of work under the orders placed. For further details of our business, please refer to the chapter titled "Business Overview" beginning on Page 113 of this Prospectus.

18. Any failure in our quality control processes may have an adverse effect on our business, results of operations and financial condition.

Our product may contain quality issues or undetected errors or defects. We experience sales returns and quality compensation in our normal course of business. We have implemented quality checks & tests and regularly conduct inspections of raw materials sourced from suppliers and finished products manufactured by us on the basis of our internal quality standards. However, we cannot assure you that our quality control processes will not fail or the quality tests and inspections conducted by us will be accurate at all times. Any shortcoming in the raw materials procured by us or in the production of our product due to failure of our quality assurance procedures, negligence, human error or otherwise, may damage our product and result in deficient product. We also face the risk of legal proceedings and product liability claims being brought against us by our customers for defective products sold. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims. A product liability claim may adversely affect our reputation and brand image, as well as entail significant costs in defending such claims.

19. Our continued operations at our manufacturing facility is critical to our business and any disruption, breakdown or failure of machinery, disruption to power sources or any temporary shutdown of our manufacturing facility, may have a material adverse effect on our business, results of operations, financial condition and cash flows.

Our manufacturing facility is subject to operating risks, such as breakdown or failure of machinery, power supply or processes, performance below expected levels of efficiency, obsolescence of equipment or machinery, labour disputes, natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. Our customers rely significantly on the timely delivery of our product and our ability to provide an uninterrupted and timely supply of our product is critical to our business. We also require substantial electricity for our manufacturing facilities which is sourced from the state electricity board. In case, the supply is not available for any reason, our production schedule may be hampered. Further, our customer relationship, business and financial results may be materially adversely affected by any disruption of manufacturing operations of our product, including as a result of any of the factors mentioned above.

20. In our restated financials as at March 31, 2025, we have a contingent liability related to export commitments. Failure to meet these commitments under the Export Promotion Capital Goods (EPCG) scheme may result in the imposition of

penalties.

Under various licenses, we have imported specific capital goods at concessional duty as part of the EPCG scheme, entitling us to duty concession. Company has provided bank guarantee to government under EPCG scheme amounting to ₹ 184.17 Lakhs on the purchase of plant and machinery.

We cannot guarantee our ability to sustain future exports and fulfil the complete export obligation within the stipulated period. Failure to meet the aforementioned commitment may result in retrospective levy of import duty on items previously imported at concessional duty. Furthermore, the relevant authorities have the discretion to impose penalties and/or interest for any defaults on a case-by-case basis. Non-compliance with statutory obligations may lead to penalties, potentially causing a material adverse effect on our business, financial condition, and results of operations.

21. Our inability to collect receivables and default in payment from our customers could result in the reduction of our profits and affect our cash flows.

Our operations involve extending credit for extended periods of time to our customers in respect of our products, and consequently, we face the risk of non-receipt of these outstanding amounts in a timely manner or at all, particularly in the absence of long-term arrangements with our customers. Our credit terms vary from 0 days to 45 days for our customers. Our inability to collect receivables from our customers in a timely manner or at all in future, could adversely affect our working capital cycle and cash flows. If we are unable to collect receivables or if the provisions for doubtful receivables are inadequate, it could have a material adverse effect on our business, financial condition and results of operations. Macroeconomic conditions could also result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause dealers to delay payments to us, request modifications to their payment arrangements, that could increase our receivables or affect our working capital requirements, or default on their payment obligations to us. An increase in bad debts or in defaults by our customers may compel us to utilize greater amounts of our operating working capital and result in increased interest costs, thereby adversely affecting our results of operations and cash flows.

22. Any failure on our part to effectively manage our inventory may result in an adverse effect on our business, revenue from manufacturing operations and financial condition.

We are a manufacturing company, and, at all points of time, a certain portion of our assets comprises an inventory of raw materials, work in progress and finished goods. Maintaining sufficient inventory of raw materials is critical for our operations including as a buffer against any supply disruptions. Any failure on our part to effectively manage our inventory of raw materials and finished products in response to changing market scenarios may have an adverse effect on our financial condition and may even lead to loss of business and increase the costs of our operations.

In the event we overestimate our requirements for raw materials as compared to the demand for our product, it may lead to situations that require us to block more capital and increase our operating costs in connection with inventories and further expose us to variations in raw materials risk. Equally, if we underestimate our requirements for raw materials, it may adversely affect our ability to manufacture the required quantity of product for our customers' requirements in a timely and cost-efficient manner which may lead to loss of business and / or the opportunity to service customers which could adversely affect our business, results of operations and financial condition. Further, we may also lose opportunities to acquire raw materials in a cost-effective manner, thereby increasing costs of operations and adversely affecting our working capital requirements.

Additionally, if our inventory of finished product is not dispatched on time or if there is any unanticipated delay in the delivery of our finished product or if the finished product is not properly maintained or is damaged or destroyed, we could lose such inventory which could have an adverse impact on our production cycle, results of operation and financial condition.

23. Under-utilization of our manufacturing capacities and an inability to effectively utilize our existing manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.

As on date of this Prospectus, our Company has 29376 spindles installed at Dholi unit which has an annual installed capacity of spinning 90,11,850 Kgs for Cotton Yarn and 90,11,850 Kgs (can be used multiple times) for Value added yarn. In Fiscals 2025, 2024 and 2023 our overall capacity utilization is detailed below:

(As certified by M/s. S. K. Patel, Chartered Engineer No. F/014852/7 through certificate dated July 25, 2025.)

Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility as well as on the market demand of the product sold by us. Among others, the capacity utilization also depends upon the availability of raw materials, labour, industry/ market conditions and procurement practice followed by our customers. In the event we are unable to achieve considerable capacity utilization of our current manufacturing facility, it would result in operational inefficiencies which could have a material adverse effect on our business, results, financial condition and future prospects. Under- utilization of our manufacturing capabilities over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance.

24. In addition to regular remuneration, other benefits and expense reimbursement our Promoters, Directors, key managerial personnel or senior management hold a vested interest in our Company; to the extent of their shareholding and associated dividend entitlements. They also have a stake in transactions involving our company, whether with themselves individually or with our group companies/entities. Our Company in future may enter in related party transactions subject to necessary compliances.

Our Promoters, Directors, key managerial personnel or senior management are interested in our Company to the extent of their shareholding and associated dividend entitlements thereon in our Company, in addition to regular remuneration or benefits and expenses reimbursement. Our Promoters, Directors, key managerial personnel or senior management are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Company/Entity. All transactions with related parties entered into by the company in past were at arm's length basis, in compliance with applicable provisions of Companies Act, 2013 and other applicable provisions.

Additionally, our Company may enter in related party transactions in future subject to necessary compliances in accordance with relevant acts, rules and regulations. For details of transactions already executed by our Company with our Promoters, Directors and Group Companies/Entities during last three years and stub period, please refer to the "Annexure 33 – Related Party Transaction" under the Chapter titled "Restated Financial Information" beginning on Page No. 168 of this Prospectus.

Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

25. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.

Our operations are subject to risks inherent in manufacturing facilities such as risk of equipment failure, work accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. Our significant insurance policies consist of, among others, Marine Cargo Annual Turnover Risk, Burglary Insurance, Standard Fire & Special Perils, Terrorism Damage, Earthquake, Flexi Laghu Udyam Suraksha. While we believe that we maintain insurance coverage in adequate amounts consistent with the size of our business, our insurance policies do not cover all risks, specifically risks such as cash in transit, machinery breakdown, keyman insurance, group personal accident or mediclaim policy. Failure to effectively cover ourselves against the associated risks may potentially lead to material losses. There can be no assurance that our insurance policies will be adequate to cover the losses/ damages suffered or that such insurance coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer

will not disclaim coverage as to any future claim. If we suffer a significant uninsured loss or if an insurance claim in respect of the subject matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

26. Changes in technology may render our current technologies obsolete or require us to make substantial investments.

To remain competitive and efficient, modernization and technology upgradation are crucial for reducing costs and increasing output. Our business heavily relies on technology and machinery to deliver quality services. However, there is a risk of our technology and machinery becoming obsolete over time or not being upgraded timely, which can adversely impact our operations and financial condition, leading to a loss of competitive edge in the market. While we believe that we have implemented updated technology, we understand the importance of continuous improvement. We are committed to staying abreast of the latest technological standards and trends to enhance our capabilities. In the event of a new technology emerging in our industry, we may be required to invest in adopting that technology or upgrading our existing machinery and equipment to remain competitive.

The costs associated with upgrading technology and modernizing machinery are significant, and they can have a substantial impact on our finances and operations. These investments may lead to higher capital expenditures and can temporarily affect our profitability and cash flow. We must carefully assess the potential benefits and returns on such investments to ensure they align with our long-term growth objectives.

Our ability to successfully implement technology upgrades and modernization efforts depends on various factors, including availability of skilled technicians, compatibility of new technology with existing systems, and adequate financial resources. Delays or challenges in adopting new technology can hinder our operational efficiency and competitiveness in the market

27. We are heavily dependent on our Promoters, Key Managerial Personnel and Senior Management Personnel for the continued success of our business through their continuing services and strategic guidance and support.

Our performance depends largely on the efforts and abilities of our promoters, senior management and other key personnel. They have gained experience in this line of business and have over the years built relations with our customers and other persons who are connected with us and have been actively involved in the day to day operations and management, further we believe that the inputs and experience of our senior management, in particular, and other key personnel are valuable for project development and procurement activities, and our overall business operations and the strategic directions taken by our Company. For details in relation to the experience of our key management personnel, see “*Our Management*” on page 150 of this Prospectus. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an effect on our business, results of operations, financial condition and cash flows.

28. Our success depends on our ability to attract and retain our key management personnel. If we are unable to do so, it would adversely affect our business and results of operations.

Our future success substantially depends on the continued service and performance of the members of our senior management team and other key personnel in our business for management, running of our daily operations, and the planning and execution of our business strategy. There is intense competition for experienced senior management and other key personnel with technical and industry expertise in our business and if we lose the services of any of these or other key individuals and are unable to find suitable replacements in a timely manner, our ability to realize our strategic objectives could be impaired.

Additionally, we may not have in place the necessary systems and processes to develop key personnel internally. Our Company does not maintain any director’s and officer’s insurance policy or any keyman insurance policy. The loss of key members of our senior management or other key team members, particularly to competitors, could have an adverse effect on our business and results of operations. Our performance also depends on our ability to attract and train highly skilled personnel. If we are unable to do so, it would materially and adversely affect our business, prospects and results of operations.

29. We have incurred indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on March 31, 2025, our total outstanding indebtedness was ₹ 6,711.11 Lakhs.

Our significant indebtedness in future may result in substantial amount of debt service obligations which could lead to:

1. increasing our vulnerability to general adverse economic, industry and competitive conditions;
2. limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
3. affecting our credit rating;
4. limiting our ability to borrow more money both now and in the future; and
5. increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a short notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “*Business Overview - Statement of Financial Indebtedness*” on page 113 of this Prospectus.

30. Our business operations are majorly concentrated in a particular geographical region and any adverse developments affecting our operations in this region could have a significant impact on our revenue and results of operations.

We carry our entire manufacturing operations from our unit located in Dholka, Ahmedabad, Gujarat. Due to the geographical concentration of our manufacturing operations primarily in Dholka, our operations are susceptible to local, regional and environmental factors, such as social and civil unrest, regional conflicts, civil disturbances, economic and weather conditions, natural disasters, demographic and population changes, and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in the transport of our product and raw materials, loss of key managerial personnel, and/or otherwise adversely affect our business, financial condition and results of operations.

In addition, we generate 97.91% of our Domestic revenue for the financial ended on March 31, 2025 from state of Gujarat. Further, most of the suppliers are also located in Gujarat. Such geographical concentration of our business in the Gujarat region heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in this region, which may adversely affect our business prospects, financial conditions and results of operations.

Further, as we enter into new markets and geographical areas, we are likely to compete with not only national players, but also the local players, who might have an established local presence, and are more familiar with local business practices and have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations. While our management believes that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we face and should not rely on our results of operations for any prior periods as an indication of our future performance.

31. Adverse publicity regarding our product could negatively impact us.

Adverse publicity regarding any of our products or similar products marketed or sold by others could negatively affect us. If any studies raise or substantiate concerns regarding the efficacy or safety of our product or other concerns, our reputation could be harmed and demand for our product could diminish, which could have a material adverse effect on growth in new customers and sales of our product, leading to a decline in revenues, cash collections, and ultimately our ability to meet operating cash flow requirements.

32. We have in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company’s financial condition and results of operations.

Our Company has entered into various transactions with our Related Party which are as follows:

These transactions, inter-alia includes, sales, Sales Return, purchase of Raw Material and Product Good, Loan Taken and Repayment, Rent, Salary and Remuneration. For details, please refer to **Annexure- 33 - Related Party Transactions**” under Section titled “*Restated Financial Information of the Company*”, “*Our Promoters and Promoter Group*” and “*Capital Structure*” beginning on page 168, 163 and 65 respectively of this Prospectus. Our Company has entered into such transactions due to easy proximity and quick execution.

While we confirm that our past related party transactions have been conducted on an arm’s length basis and are in accordance with the provisions of the Companies Act, 2013 and other applicable laws. Furthermore, it is likely that we will continue to enter into related party transactions in the future. Although all related-party transactions that we may enter into in the future are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, there can be no assurance to you that such transactions in the future or any other future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect on our business, cash flows, financial condition and results of operations.

33. Dependence upon third party transportation services for supply and transportation of our product are subject to various uncertainties and risks, and delays in delivery may result in rejection of product by customer.

We do not have an in-house transportation facility and we rely on third party transportation and other logistic facilities at every stage of our business activity including for procurement of product from our suppliers and for transportation of product to our customers. For this purpose, we hire services of transportation companies. However, we have not entered into any definitive agreements with any third-party transport service providers and engage them when needed from time to time. Additionally, availability of transportation solutions in the markets we operate in is typically fragmented.

Any delay or disruption caused to the transportation of materials could adversely impact our ability to procure the materials as well as to meet the delivery schedule of the customers in an economical manner. To ensure timely delivery of our products, we may also be required to maintain a relatively high level of inventory of our products and this may also resultantly increase our

cost. In addition, any compensation received from insurers or third-party transportation providers may be insufficient to cover the cost of any delays and will not repair damage to our relationships with our affected customers. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third-party transportation providers. This could require us to expend considerable resources in addressing our distribution requirements, including by way of absorbing these excess freight charges to maintain our selling price, which could adversely affect our results of operations, or passing these charges on to our customers, which could adversely affect demand for our products.

34. The average cost of acquisition of Equity Shares by our Promoters could be lower than the Offer price.

38. Our Promoter, Director and Promoter Group members/entities have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoters/ Directors and thereby, impact our business and operations.

Our Promoters, Directors and Promoter Group entities/members, namely along with certain other parties have extended personal guarantees towards loan facilities taken by our Company. Any default or failure by us to repay the loans in a timely manner, or at all could trigger repayment obligations of our guarantors in respect of such loans, which in turn, could have an

impact on their ability to effectively service their obligations as Promoters/Directors of our Company, thereby having an effect on our business, results of operation and financial condition. Furthermore, in the event that these individuals withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may from time to time be required to make provisions for foreign exchange differences in accordance with accounting standards. In addition, the policies of the RBI may also change from time to time, which may limit our ability to effectively hedge our foreign currency exposures and may have an adverse effect on our results of operations and cash flows. Any such losses on account of foreign exchange fluctuations may adversely affect our results of operations and cash flows. Certain markets in which we sell our products may be subject to foreign exchange repatriation and exchange control risks, which may result in either delayed recovery or even non-realization of revenue.

The deployment of funds as stated in the “*Objects of the offer*” beginning on page 80 of this Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilised have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In such a situation, we would have broad discretion in allocating these net proceeds from the Offer without any action or approval of our shareholders. In case the assumptions on which these estimates have been made are not correct or they become un-realistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability.

43. *Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary.*

The business may also encounter some inventory loss on account of employee theft, vendor fraud and general administrative error. While we have not experienced any such instance in the past, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse or similar incidents in the future, which could adversely affect our results of operations and financial condition. Though we have insurance coverage against the risks including theft and fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

45. *We are subject to restrictive covenants under our credit facilities that limit our operational flexibility.*

The loan agreements entered into by us with banks contain specific covenants which require us to obtain the prior approval/ permission from the banks on the occurrence of certain events such as formulation of any scheme of amalgamation or reconstruction, undertaking of any new project or expansion, making any substantial change in our management set up, any change in our capital structure resulting in reduction of capital, etc. We are required to obtain consent/ approval from our lender before undertaking any such steps which have been mentioned in the loan agreements. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please see “*Restated Financial Information*” *Statement of Financial Indebtedness*” on page 168 of this Prospectus.

47. *We will continue to be controlled by our Promoters after the completion of the Offer.*

After the completion of the Offer, our Promoters will hold 65.56% of our outstanding Equity Shares. As a result, our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders. By exercising their control, our Promoters could delay, defer or cause a change of our control or a change in our capital structure, delay, defer or cause a merger, consolidation, takeover or other business combination involving us, discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot guarantee that our Promoters and Promoter Group will act in our interest while exercising their rights.

48. *The Offer price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer price and you may not be able to sell your Equity Shares at or above the Offer Price.*

The Offer price of the equity shares have been based on many factors and may not be indicative of the market price of our Equity Shares after the Offer. We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, working capital requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 167 of this Prospectus.

50. Certain key performance indicators for certain listed industry peers included in this Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete

Pursuant to the requirements of the SEBI ICDR Regulations 2018, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “*Basis for Offer Price*” beginning on page 91 of the Prospectus. Although this information is sourced from and relied upon on the consolidated audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There may be different methodologies and formulas used to compute the various ratios.

51. Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

Any future equity issuance by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Offer, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

52. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.

We are currently engaged in the manufacture and supply of yarn which attracts tax liability such as Goods and Service Tax and Income Tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund. Any demand or penalty raised by the concerned authority in future for any previous years or current year will affect the financial position of the Company.

53. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Prospectus.

While facts and other statistics in the Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various governmental and organizational web site data that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Industry Overview*” beginning on page 104 of this Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

54. Certain data mentioned in this Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

55. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and

disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge, and we cannot assure that we will be able to do so in a timely manner. The failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by Stock Exchange.

56. *We have not commissioned an industry report for the disclosures made in the chapter titled "Industry Overview" and made disclosures on the basis of the data available from the online source.*

We have not commissioned an industry report for the disclosures which need to be made in the Chapter titled "Industry Overview" beginning on page 104 of this Prospectus. We have made disclosures in the said chapter on the basis of the relevant industry related data available online. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Prospectus. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Further, the industry data mentioned in this Prospectus or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Prospectus in this context.

57. *The Company may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect the trading price of the Equity Shares.*

Upon listing of the Equity Shares, we may be subject to various enhanced pre-emptive surveillance measures such as additional surveillance measures ("ASM") and graded surveillance measures ("GSM") by the Stock Exchanges. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. ASM and GSM are imposed on securities of companies based on various objective criteria, which includes market-based parameters such as significant variations in price and volume, concentration of client accounts as a percentage of combined trading volume, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the offeror. Specific parameters for GSM include net worth, net fixed assets, price to earning ratio, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of client accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares each being imposed by SEBI and the Stock Exchanges. In the event our Equity Shares are subject to such surveillance measures implemented by any of the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, reduction of applicable price band, requirement of settlement on gross basis, as well as mentioning of our Equity Shares each on the surveillance dashboards of the Stock Exchanges, limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

EXTERNAL RISK FACTORS

1. *A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.*

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings,

balance of trade movements, namely export demand and movements in key imports (oil and oil product), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our product and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging markets in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

2. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter “*Key Industry Regulations and Policies*” on page 137 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations.

3. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.*

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the Pandemic and Ukraine war has led to a loss of investor confidence in worldwide financial markets. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

4. *Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, man-made disasters, including acts of war, terrorist attacks, environmental issues and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations.

Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

5. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in

effect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

6. *If certain labour laws become applicable to us, our profitability may be adversely affected.*

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Government is proposing to notify the consolidated Labour Codes in the near future. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

7. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

8. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.*

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, depending on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financing could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an Offer of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

9. *Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an application.*

Pursuant to the SEBI ICDR Regulations, Investors are not permitted to withdraw or lower their application (in terms of quantity

of Equity Shares or the Amount) at any stage after submitting an application. While our Company is required to complete Allotment pursuant to the Offer within two Working Days from the Bid/ Offer Closing Date, events affecting the Applicants decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the applicant's ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

GLOBAL OUTLOOK

More than three years after the global economy suffered the largest shock of the past 75 years, the wounds are still healing, amid widening growth divergences across regions. After a strong initial rebound from the depths of the COVID-19 pandemic, the pace of recovery has moderated. Several forces are holding back the recovery. Some reflect the long-term consequences of the pandemic, Russia’s war in Ukraine, and increasing geo-economics fragmentation. Others are more cyclical, including the effects of monetary policy tightening necessary to reduce inflation, withdrawal of fiscal support amid high debt, and extreme weather events.

Despite signs of economic resilience earlier this year and progress in reducing headline inflation, economic activity is still generally falling short of pre-pandemic (January 2020) projections, especially in emerging market and developing economies (Figure 1.1, panel 1). The strongest recovery among major economies has been in the United States, where GDP in 2023 is estimated to exceed its pre-pandemic path. The euro area has recovered, though less strongly—with output still 2.2 percent below pre-pandemic projections, reflecting greater exposure to the war in Ukraine and the associated adverse terms-of-trade shock, as well as a spike in imported energy prices. In China, the pandemic-related slowdown in 2022 and the property sector crisis contribute to the larger output losses of about 4.2 percent, compared with pre-pandemic predictions. Other emerging market and developing economies have seen even weaker recoveries, especially low-income countries, where output losses average more than 6.5 percent. Higher interest rates and depreciated currencies have exacerbated the difficulties of low-income countries, placing more than half either at high risk of distress or already in distress. Overall, global output for 2023 is estimated at 3.4 percent (or about \$3.6 trillion in 2023 prices) below pre-pandemic projections.

INDIAN ECONOMY

Globally, 2024 has been an eventful year. The year witnessed unprecedented electoral activity on the political front, with more than half of the global population voting in major elections across countries. Meanwhile, adverse developments like the Russia-Ukraine conflict and the Israel-Hamas conflict increased regional instability. These events impacted energy and food security, leading to higher prices and rising inflation. Cyberattacks also became more frequent and severe, with growing human and financial consequences due to the increasing digitisation of critical infrastructure.¹ Geopolitical tensions, have reshaped global trade. Geopolitical risks and policy uncertainty, especially around trade policies, have also contributed to increased volatility in global financial markets

Nonetheless, global economic growth has remained fairly moderate. The global economy grew by 3.3 per cent in 2023. The International Monetary Fund (IMF) has projected growth of 3.2 per cent and 3.3 per cent for 2024 and 2025, respectively. Over the next five years, global growth is expected to average around 3.2 per cent, which is modest by historical standards. While the overall global outlook remains steady, growth varies across different regions.

In the Euro area, growth is expected to improve from 0.4 per cent in 2023 to 0.8 per cent in 2024 and further to 1.0 per cent in 2025 on the back of improving services activity. However, growth outcomes in Europe have been varied. Some countries like Spain, France, Poland, and the United Kingdom have benefitted from the strength of their services sector. Meanwhile, manufacturing-intensive countries like Germany and Austria are being weighed down by weak demand.⁵ Germany's structural weaknesses, particularly in manufacturing (Chart I.3), have been noticeable, contributing to the slackness in Europe's manufacturing. Political developments in France and Germany are also adding to policy uncertainty in Europe's major economies.

Inflation rates across economies have trended downward steadily, approaching central bank target levels. This has been the result of tighter monetary policy regimes across the globe and supply chains adapting to higher levels of economic uncertainty. As a consequence, price pressures eased in 2023 due to a reduction in fuel prices. In 2024, it was attributed to a broad-based reduction in goods inflation.

Geopolitical risks remain elevated due to ongoing conflicts, which pose significant risks to the global economic outlook. These risks can influence growth, inflation, financial markets, and supply chains. An intensification of the evolving conflicts in the Middle East, or the Russia-Ukraine conflict, could lead to market repricing of sovereign risk in the affected regions and disrupt global energy markets. The oil market is well-supplied for now. However, any damage to energy infrastructure could tighten supply, adding uncertainty to the global economic outlook.

Tensions in the Middle East have disrupted trade through one of the critical shipping routes – the Suez Canal. About 15 per cent of global maritime trade volume normally passes through the Suez Canal. In response, several shipping companies have diverted their ships around the Cape of Good Hope, which has increased delivery times by 10 days or more, on average. These disruptions have led to higher freight rates along major shipping routes, which in turn impact global trade activity.

The COVID-19 pandemic caused widespread disruptions to economies worldwide. Economic Survey 2023-2414 compared the post-pandemic trends until Q4 FY24 with the pre-pandemic trajectory and concluded that the economy grew briskly enough to avert any permanent loss of output. This section extends the analysis to Q2 FY25 (ending September 2024) with a sectoral view of the economy.

The overall picture is encouraging. Aggregate GVA surpassed its pre-pandemic trend in Q1 FY25, and it now hovers above the trend in the H1 FY25 15. The agriculture sector remains strong, consistently operating well above trend levels. The industrial sector has also found its footing above the pre-pandemic trajectory. The robust rate of growth in the recent years has taken the services sector close to its trend levels.

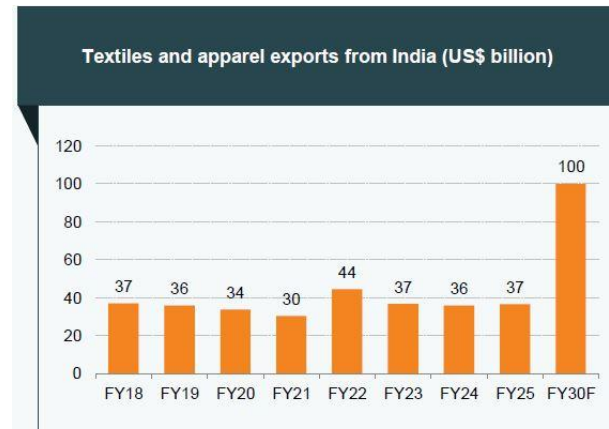

A closer look at industrial sub-sectors reveals a spectrum of performances. Construction has been a standout, gaining momentum since mid-FY21 and soaring approximately 15 per cent above its pre-pandemic trend—an impressive feat driven by robust infrastructure development and housing demand. The utilities sector, including electricity, gas, water supply, and other services, reached its pre-pandemic trend by the end of FY23 and has consistently stayed above these levels. Manufacturing, while steadily recovering, remains slightly below its pre-pandemic trajectory. Meanwhile, mining continues to operate below its pre-pandemic trend.

VISION, MISSION AND VALUES OF OUR COMPANY

OUR BUSINESS MODEL

We derive our revenue from following business verticals:

OUR PRODUCTS

We are producing mainly cotton yarn and value-added cotton yarns. The yarn some of which are given below:

1. Compact Carded Hosiery,
2. Compact Combed Hosiery,
3. Compact Carded Weaving,
4. Compact Comb Weaving,
5. Carded Weaving,
6. Combed Weaving,
7. Carded Hosiery,
8. Combed Hosiery,
9. Eli KW,
10. Eli CW,
11. Slub Yarn,
12. Siro Slub Yarn,
13. CSY-Lycra-Core Spin Yarn (Spandex),
14. TFO Yarn - Double

Yarn is the end product of spinning. It is the primary component for any Cotton woven or knitted fabric. Cotton yarn is used to make different type of fabrics. In some cases, the cotton yarn is blended with some other yarn in different ratios to provide different effects like shining or to lend more elasticity to the yarn. It is the yarn count and the twisting mode of the yarn that actually determines the overall strength and look of the manufactured fabric.

OUR MANUFACTURING FACILITY

BUSINESS PROCESS

The Process flow of our business operations is described below:

Ring Spinning System

The typical project lifecycle for our business is described below:

Spinning (Yarn Manufacturing)

The process of spinning means conversion of loosely laid fibers, into a twisted strand of fibers – called YARN - with a particular linear density i.e. weight per unit length. In technical terms it is called “Count”. A yarn is capable of being woven into a cloth. Yarn is the basic raw material for most of the textile fabrics. This fabric has its own purpose and end use such as apparel, sportswear, furnishing, medical, geotextile, industrial and so on. The raw material for cotton yarn is evidently natural raw cotton. Cotton is an agricultural crop and is picked from cotton cultivating fields in the form of cotton bolls. When picked, the cotton bolls contain cotton fibers attached to its seeds. It also contains leaves, soil and other impurities called ‘TRASH’. The first process, though the periphery of the spinning process, through which the raw material goes is Ginning. The process of ginning is the process of separating cotton seeds and cotton fibers. This ginned cotton is then pressed into a hard compressed structure called ‘bale’ suitable for handling, storing and transporting. Prior to ginning, a coarse inspection and segregation of foreign matters, damaged, yellow cotton is undertaken. Normal weight of an Indian cotton bale is 165 to 170 kg. A pair of two such bales is called ‘CANDY’.

Sequence of processes and machines:

The sequence of production processes and machines further down the line, till it is made into yarn is as under:

1. Mixing

The cotton, as purchased by a spinning mill, comes in the form of bales. It is hard compressed for effective handling, storage and transportation. Cotton in this form cannot be fed directly to the first process of the spinning i.e. blow room line. Traditionally, this was done manually by employing a large amount of workforce, mainly women. With the latest automated technology, this is done by the machine called bale plucker. Here, a large number of bales - normally 20 to 50 - are kept side by side. The traveler of the bale plucker travels along the complete length of this whole lot of bales and plucks some but equal quantity of cotton fibers from each bale. The amount of fibers to be plucked from each bale can be adjusted by the settings of the plucker. This ensures homogeneous mixing of large quantities of fibers coming from different bales. This in turn ensures the large quantity of yarn produced out of such mixing will have uniform physical and chemical properties. The fibers so plucked are fed pneumatically to the blow room line.

2. Blow Room

The function of this process is to open the small lumps of cotton fibers, as fed by bale plucker, into completely loose form and to remove foreign materials such as leaves, seed particles, earth particles and other unwanted material called trash. Normally it is a sequence of up to 5 machines through which the cotton is processed. These machines have revolving rollers with pins/pegs mounted on their circumference. These rollers are called beaters, which beat and thrash the cotton into a loose state. In doing so the trash being heavier in weight gets separated from cotton fibers and drops down through openings bars underneath and beaters.

3. Carding

With latest technology the loose fibers from the blow room are pneumatically fed to the next machine called card. Carding is the most important process in the yarn production process. It is said that, "well carded is half spun". This machine also has three rotating cylinders of different sizes placed very close to each other. These cylinders are called Licker-in, Cylinder and Doffer. Special kind of saw-toothed metallic wire is mounted on these cylinders. The card has unidirectional feeding arrangement with saw toothed feed roller for gripped and gentle transfer of fibers to licker-in zone. Modern carding machines may possess more than one Licker-in for intensive cleaning, pre opening and individualization of fibers. The cotton is passed over this fast moving wired surface and thereby individual fibers are separated from each other.

4. Breaker Draw Frames

The silver as delivered from cards has got varying weight per unit length over its entire length. This variation within certain norms is unavoidable during the carding process because the strand is formed by grouping together or bunching of individual fibers with a certain degree of overlapping. The variation in weight per unit length has to be minimized to get uniform yarn. Draw frame combines 6-8 slivers together and then this combined strand is stretched or drawn 6-8 times. The action of combining say 6-8 strands achieves the object of coinciding thicker portions with thinner portions of two different strands thereby achieving better uniformity in weight per unit length.

5. Lap Former

This machine combines 24-30 slivers from a draw frame and makes it into a roll or lap with slivers arranged one beside the other in this lap. This is a feed package for combining machines called comber.

6. Comber

The fibers in the silver produced by carding and drawing frame machines lie in a criss-cross manner along the length of the sliver. To produce high quality uniform and stronger yarn these fibers need to straighten and make them lie along the length of the silver and parallel to each other. In the way we comb our hairs by a comb, this machine combs the fibers, lying in criss cross manner, straightens them and makes them lie along the length of silver and parallel to each other. In this process of combing short fibers, i.e. fibers below a certain length, clusters of fibers get removed. Rest of the cotton fibers go into further process again in the form of silver.

7. Finisher Draw Frame

As mentioned above, this is the second passage through a draw frame with identical objectives but with greater expectations of uniformity. This greater uniformity is achieved by installing auto levelers on this draw frame. This is an electronic system, which continuously senses the weight per unit length of silver being processed and adjusts it within a very close tolerance automatically. The output product of this machine is once again a sliver which is collected and stored in a can.

8. Speed Frame

This is the first stage to reduce the weight per unit length of fiber strand to a desired value depending on the yarn count to be produced next on ring frames. The sliver from the draw frame last passage is fed to this machine and it passes through

pairs of rollers with speed in increasing order whereby it gets stretched or drawn and is reduced down to desired weight per unit length. The delivered strand called as roving is quite thin and hence a little twist is imparted to hold the fibers together.

9. Ring Frame

The roving fed from bobbins to individual spindles on a ring frame machine is drawn to get desired weight/length or desired count. The yarn thus formed is wound onto a small bobbin. When bobbin completes a certain pre-decided content of yarn wound on it the machine is stopped, the bobbins are taken out or doffed from the ring frame and then taken to the next process of winding.

10. Winding

This is the last stage in single yarn spinning where the yarn from ring bobbing is transferred on to a bigger package normally into conical shape to make it convenient for handling. More importantly, while doing so it joins the yarns from several ring frame bobbins and to make a long single length of continuous yarn wound compactly onto a cone available for the next process of weaving or knitting. Another important function of a winding machine is electronic checking of yarn being wound by cutting and rejecting that much portion of yarn which is beyond the predefined acceptable tolerance limits of imperfection diameter and length. With the latest automated system, the winding machine is linked to the ring frame as its extension. The bobbins doffed from the ring frame by automatic doffing system are moved uninterruptedly to the link cone winding machine. This solution not only ensures the quick and efficient feeding of the ring frame bobbins, but also reduces the damage to the yarn during manual doffing & manual transportation and avoids mixing of yarns. In case of link cone the number of winding units provided, always match with the production of ring frame to which it linked.

11. Yarn Conditioning.

Saturated steam has optimum moisture content and very good heat conductor; hence it is most suitable for conditioning and steaming of Cotton Textiles. The m/c thermal conditioning process uses low temperature saturated steam in vacuum. The yarn is treated very gently under vacuum principle and an absolutely saturated steam atmosphere. The vacuum removes the air pockets from the yarn package and ensures accelerated steam penetration. It also removes the atmospheric oxygen to prevent oxidation. The m/c conditioning process makes use of physical properties of the saturated steam and moisture in the gas state is very finely distributed throughout the package and does not cling to the yarn in the form of drops. The uniform required level of moisture content in the yarn improves yarn strength and elongation, thus improvement in work capacity.

12. Packing

The yarn wound on paper tubes in the form of a cone is put on to the trolley and brought to the packing area. Here the cones are physically checked, cleaned, if required. The sticker containing details such as company name, count and type of the yarn, is put inside each cone. These cones are packed in polypropylene sacks or corrugated paper boxes or shrink-wrapped on pallets.

13. Automatic Waste Collection System.

Automatic centralized waste collection system for the blow room, cards and combers has been incorporated. This improves the performance of the machine and helps in eliminating contamination in the department as well as keeping the department clean and dust free. It will also contribute in achieving good quality of yarn and save the manual labour involved in handling the waste.

The end users of cotton yarn can vary across different industries. Cotton yarn is commonly used in the textile and apparel industry for making various kinds of fabrics, gray cloth and denim. It is also used in the home furnishing industry for making curtains, drapes, and other fabric-based items. Additionally, cotton yarn is utilized in the crafting and DIY sector for knitting, crocheting, and other textile-based projects.

COMPETITION

We operate in a highly competitive market and there are large numbers of players. Quality of service and price are the main factors for Customers in making decisions to have our services. We may face competition from our peers who have similar one or more divisions of our business. Competition emerges not only from small but also from big Regional and National and International players. Our experience in this business has enabled us to provide quality work in response to customer's demand for best quality. Moreover, there are minimal entry barriers in this industry and any expansion in capacity of existing producers would further intensify competition.

RAW MATERIAL

The major raw material used in our manufacturing process is Raw Cotton, Cotton Yarn, Polyester Staple Fiber and Lycra.

1. RAW COTTON

Raw cotton, also known simply as cotton or cotton fiber, is a natural fiber harvested from the cotton plant. Cotton has been cultivated for thousands of years and is one of the most widely used natural fibers in the world. Cotton is harvested from the cotton plant, primarily from the bolls which contain the cotton fibers. The harvesting process involves picking the bolls

from the plants either by hand or by machine. After harvesting, raw cotton undergoes several processing steps to remove impurities and prepare it for use in textiles. These steps may include ginning, cleaning, carding, and spinning.

2. COTTON YARN

Cotton yarn is a type of yarn made from cotton fibers. Cotton yarn is made from cotton fibers, which are harvested from the cotton plant's bolls. Cotton is one of the most widely used natural fibers in the world, known for its softness, breathability, and absorbency. Cotton yarn is known for its softness, breathability, and absorbency, making it suitable for a wide range of textile applications. It is comfortable to wear against the skin and is commonly used in clothing, bedding, towels, and other textiles.

3. POLYESTER STAPLE FIBER

A staple fiber is a textile fiber of discrete length. A staple fibre is a non-continuous fibre of relatively short length. Because of their short length, staple fibres must be twisted together to form a long, continuous yarn. The opposite is a filament fiber, which comes in continuous lengths. Staple length is a characteristic fiber length of a sample of staple fibers. It is an essential criterion in yarn spinning, and aids in cohesion and twisting. Compared to synthetic fibers, natural fibers tend to have different and shorter lengths. The quality of natural fibers like cotton is categorized on staple length such as short, medium, long staple, and extra-long. *Gossypium barbadense*, one of several cotton species, produces extra-long staple fibers. The staple fibers may be obtained from natural and synthetic sources. In the case of synthetics and blends, the filament yarns are cut to a predetermined length (staple length).

4. LYCRA

Lycra, also known as spandex or elastane, is a synthetic fiber known for its exceptional elasticity and stretchiness. Lycra is a segmented polyurethane-polyurea copolymer. It is composed of long-chain polymers with alternating rigid and flexible segments. The flexible segments allow the fiber to stretch significantly, while the rigid segments provide strength and durability.

India is a major cotton producer and is the third-largest cotton producer in the world, with the highest area under cultivation. India's cotton area accounts for about 25% of the global cotton area. Gujarat and Maharashtra belt is rich in black soil and it is a major production area of cotton. Gujarat produces about 35% of total cotton produced in India. In Gujarat state cotton is mainly grown in Himmatnagar, Rajkot, Jamnagar, Surendranagar and Junagadh. Our Company is very well connected by road to all the above locations. Hence we do not see any logistics problem in getting the timely delivery of the yarn. Further the factory site is well connected by road to the other cotton growing nearby states like Rajasthan, Maharashtra, M.P, Hariyana and Punjab.

We have not entered into a long term supply contract with our vendors. We have good relationships with our suppliers.

TECHNOLOGY

We use information technology systems to enhance our performance and efficiency. We have in house accounting software for Accounting Record Keeping. We believe that this system allows us to streamline our processes while enhancing our monitoring and control functions.

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of the National Environmental Policy:

1. Conservation of Critical Environmental Resources
2. Intra-generational Equity: Livelihood Security for the Poor

conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

The Registration Act, 1908

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

The Indian Contract Act, 1872

The Indian Contract Act, 1872 codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contracts. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complementary to the provisions of the Contract Act and the T.P. Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for the purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance means the Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to another party.

Central Goods and Services Tax Act, 2017

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

Customs Act, 1962

INTELLECTUAL PROPERTY RIGHTS

Intellectual property in India enjoys protection under both common law and statutes. Under statutes, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999. These enactments provide for the protection of intellectual property by imposing civil and criminal liability for infringement. In addition to the domestic laws, India is party to several international intellectual property related instruments including the Patent Cooperation Treaty, 1970, the Paris Convention for the Protection of Industrial Property, 1883, the Berne Convention for the Protection of Literary and Artistic Works, 1886, the Universal Copyright Convention adopted at Geneva in 1952, the International Convention for the Protection of Performers, Producers of Phonograms and Broadcasting Organizations, 1961 and as a member of the World Trade Organisation is a signatory to the Agreement on Trade Related aspects of Intellectual Property Rights.

The Trade Marks Act, 1999 (“Trade Marks Act”) The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. Indian law permits the registration of trademarks for both goods and services. Under the provisions of the Trade Marks Act, an application for trademark registration may be made with the Trade Marks Registry by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trademark in the future. Once granted, a trademark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trade Marks Act. The Trade Marks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks among others. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010, simultaneous protection of trademark in India and other countries has been made available to owners of Indian and foreign trademarks. It also seeks to simplify the law relating to the transfer of ownership of trademarks by assignment or transmission and to bring the law in line with international practices.

Copyright Act, 1957 (“Copyright Act”)

The Copyright Act, 1957, along with the Copyright Rules, 1958, (collectively, “Copyright Laws”) governs copyrights subsisting in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings, including computer programmes, tables and compilations including computer databases. Computer programme constitutes a literary work under Indian law and is afforded copyright protection and the owner of such computer programme becomes entitled

to protect his works against unauthorized use and misappropriation of the copyrighted work or a substantial part thereof. Any act of this nature entitles the copyright owner to obtain relief from a court of law including injunction, damages and accounts of profits. Further, copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work and once registered, copyright protection remains valid until expiry of sixty years from the demise of the author. Reproduction of a copyrighted computer programme for sale or hire or trade exhibit in public or distribution or commercial rental, offer for sale or commercial rental, issuing copy(ies) of the computer programme or making an adaptation of the work without consent of the copyright owner amounts to infringement of the copyright. However, the Copyright Act prescribes certain fair use exceptions which permit certain acts, which would otherwise be considered copyright infringement.

The Patents Act, 1970

The Patents Act, 1970 (“Patents Act”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognize product patents as well as process patents. In addition to the broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. Section 39 of the Patents Act also prohibits any person resident in India from applying for a patent for an invention outside India without making an application for a patent for the same invention in India. The term of a patent granted under the Patents Act pursuant to Section 53 is for a period of twenty years from the date of filing of the application for the patent. A patent shall cease to have effect if the renewal fee is not paid within the period prescribed for the payment of such renewal fee. While the Patents Act prohibits patentability of a ‘computer programme’ as such, computer programmes in combination with novel hardware could be considered patentable depending on the substance of the invention and applicable provisions of the Patents Act. Computer programmes on their own are excluded from patent protection and are protected as a literary work under the Copyright Laws. In terms of the Patent Act, the patentee holds the exclusive right to prevent third parties from the using, offering for sale, selling or importing for such purposes, the patented product or product obtained directly by a process patented in India.

FOREIGN INVESTMENT LAWS

Foreign Trade (Development and Regulation) Act, 1992

The FTA is the main legislation concerning foreign trade in India. The FTA, read along with the Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given wide powers to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The FTA read with the Foreign Trade Policy, 2023, prohibits anybody from undertaking any import or export except under an importer-exporter code (“IEC”) number granted by the Director General of Foreign Trade. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. The IEC shall be valid until it is cancelled by the issuing authority. An IEC number allotted to an applicant is valid for all its branches, divisions, units and factories. Failure to obtain the IEC number shall attract a penalty under the FTA.

The Conservation of Foreign Exchange and Prevention of Smuggling Activities Act, 1974

COFEPOSA came into force for the reason to provide preventive detention and to protect and augment the guidelines of foreign exchange. The Act also aims to control smuggling activities and other issues in relation to these activities. COFEPOSA confers power on the Central and the State Governments to issue orders for detaining a person if it is satisfied that the person has acted detrimental to the protection and intensification of foreign exchange. The Government shall also issue an order of detention on the ground that the person has engaged in the activity of smuggling goods, assists any person in smuggling goods, transports or conceals such goods, harbours any person employed in the smuggling activities or does any other activity related with smuggling. Such an order shall be issued by the Joint Secretary to the Central Government or Secretary to the State Government or any senior officer authorized by the Government.

Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for Retail Individual Investors applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

Subsequently, for applications by Retail Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Retail Individual Investor (“UPI Phase III”), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on/or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Offer from existing 6 working days to 3 working days from the date of the closure of the Offer. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public Offers opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public Offer to three Working Days. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public Offer of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by Retail Individual Investors through intermediaries with the objective to reduce the time duration from public Offer closure to listing from

six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public offer closure to listing continued to be six Working Days.
- b) Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Bidder through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public offer closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c) Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all offers opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public offers shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Individual Bidders (who applies for minimum application size) using the UPI.

The processing fees for applications made by Individual Investor who applies for minimum application size Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Offeror at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Offeror is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Offeror, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under automatic route in our Company.

The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as the Department of Industrial Policy and Promotion) (“DPIIT”), offer the FDI Policy, which, with effect from October 15, 2020 consolidated, subsumed and superseded all previous press notes, press releases and clarifications on FDI offer by the DPIIT that were in force and effect prior to October 15, 2020. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP offers an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

The foreign investment in our Company is governed by, inter-alia, the FEMA, the FEMA Non-debt Rules, the FDI Policy offer and amended by way of press notes.

Further, in terms of the FEMA Non-debt Rules, the aggregate FPI investment limit is the sectoral cap applicable to Indian company as prescribed in the FEMA Non-Debt Instruments Rules with respect to its paid-up equity capital on a fully diluted basis. See “*Offer Procedure*” beginning on page 222.

Further, in accordance with the FDI Policy, the Press Note No. 3 (2020 Series), dated April 17, 2020 offer by the DPIIT and the FEMA Non-debt Rules, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Non-debt Rules.
